Dec/2019

About	Quantum-safe cryptography researcher focusing on digital signature schemes, backed by
	years of contributions to the Brazilian Public-Key Infrastructure standards and a diversified

set of projects related to information security.

Address Laboratório de Segurança em Computação (LabSEC)

> Departamento de Informática e Estatística, 218 Universidade Federal de Santa Catarina (UFSC) Florianópolis, Santa Catarina, 88040-900, Brasil

Portuguese (native), English (fluent), French (beginner) Languages

Education

M.Sc. in Computer Science (PPGCC/UFSC)	Aug/2018-
► Thesis: Reduction of key sizes on Rainbow-like multivariate signature schemes (to	Today

be defended on Jul/2020)

B.Sc. in Computer Science (UFSC) Mar/2013-

► Thesis: Performance optimization for the Winternitz signature scheme (pt-BR) Jul/2018

Publications

Academic activities

Teaching assistance for INE410134 - Post Quantum Cryptography and Computation	Aug/2019-
► Guest lecture and consultancy on multivariate cryptography to graduate students	Nov/2019

Co-supervision of B.Sc. thesis Mar/2019-

\blacktriangleright	M. S. P. Bittencourt. Reducing keys in Rainbow-like signature schemes, December
	2019. URL https://repositorio.ufsc.br/handle/123456789/202514

Teaching assistance for INE5601 - Mathematical Foundations of Informatics	Aug/2018-
 Classes on order, lattice and group theory to undergraduate students 	Dec/2018

Teaching assistance for INE5201 - Introduction to Computer Science	Mar/2015-
► Consultancy on building blocks of programming languages and GNU/Linux	Aug/2015

Lecturer of "Data analysis with SEstatNet" for the 13th SEPEX at UFSC Oct/2014
--

▶ Workshop on data analysis and processing with specialized tool

Teaching assistance for INE5404 - Probability and Statistics Jul/2014-► Consultancy on exploratory data analysis, probability distributions and events Aug/2015

Professional experience

Senior software developer and systems administrator at LabSEC

Jan/2018– Today

▶ In partnership with the Brazilian National Institute of Information Technology (ITI). Major development effort towards the official digital signature validation tool for the Brazilian Public-Key Infrastructure, that resulted in (i) a responsive new web interface; (ii) a clean API that enables headless/batch signature validation; (iii) enforced automated unit testing and continuous deployment practices.

Security ceremony agent at LabSEC

Oct/2018-

▶ In partnership with public prosecutor's offices. Secure servers were provisioned to run online elections through the end-to-end verifiable voting system Helios, with reduced need for human-computer interaction.

Apr/2019

Researcher of quantum-safe blockchain protocols at LabSEC

Sep/2018-

▶ In partnership with a novel blockchain platform. Co-developed a protocol to quantum-proof a blockchain, with secure substitution of wallets, replacement of cryptographic algorithms and zero downtime for the platform.

Mar/2019

Computer forensic examiner at LabSEC

Sep/2017-

▶ In partnership with an intelligent transportation systems company. A complex data set was processed with native GNU/Linux tools and statistical techniques in order to verify the accuracy of pictures taken by speed enforcement cameras.

Apr/2018

Junior software developer at LabSEC

Nov/2016-

▶ In partnership with a Brazilian digital security company. Developed a proof-of-concept signature validation module for PDF.js and a small library able to easily customize and instantiate most artifacts in a public-key infrastructure.

Dec/2017

Junior software developer at LabSEC

May/2016-

▶ In partnership with the Brazilian National Institute of Information Technology (ITI). Implemented verification modules for CMS and PDF signatures in the official digital signature validation tool for the Brazilian Public-Key Infrastructure.

Oct/2016

Qualifications

Programming languages and frameworks

► Worked with several notable Python frameworks: Flask, gspread, Helios, IPython, Matplotlib, NumPy, PyQt, Requests, robobrowser, Scrapy. For 5+ years routinely used AWK, Bash, C, C++, gnuplot, Java (JSE, JEE), LATEX, Make, SageMath, sed.

Software and environment tools

► GNU/Linux exclusive user for 4+ years, with the following skill set: (i) text editors and IDEs include Vim, IntelliJ Idea, PyCharm; (ii) management software includes Git, GitLab CI/CD, Maven, Subversion; (iii) middleware includes Apache HTTP Server, Archiva, Tomcat, WildFly; (iv) miscellaneous software includes Clang Tools, Docker, GDB, QEMU, PostgreSQL, SQLite, Valgrind.

Other interests

Enthusiastic about astronomy, comics, immersive sims, IBM keyboards specifically older than the author and any song with a saxophone line.
